

DANIELLE CHANDLER

UNDERGRAD: VANDERBILT UNIVERSITY

PROFESSION: HEALTHCARE ADMINISTRATION

CASEWORK INTERN JANUARY - MAY 2018

Danielle worked with TJC as a casework intern from January - May 2018 as part of her majors' (Human & Organizational Development / Medicine, Health, and Society) capstone program during her senior year at Vanderbilt. After graduation, she moved to NYC to pursue a career in healthcare administration. She first spent 5 years on the Onboarding team at Genoa Telepsychiatry, working directly with providers and clinics to build out their telepsychiatry programs and bring much-needed mental healthcare to underserved communities across the country. She recently joined the Provider Operations team at Devoted Health, an integrated healthcare company offering Medicare Advantage plans. Her role in credentialing is focused on building and maintaining a robust, trustworthy network of quality providers for Devoted's members. Danielle is grateful for her internship experience with TJC as it confirmed her decision to pursue a career in healthcare, specifically one with mission-driven organizations that prioritize expanding access to quality care, care navigation resources, and fiercely advocating for those most vulnerable.
