

# Immigrants and the COVID Vaccine:

## What do I need to know?

The COVID vaccine should be free for most people. This includes people without health insurance. People who do have insurance should bring that information with them.

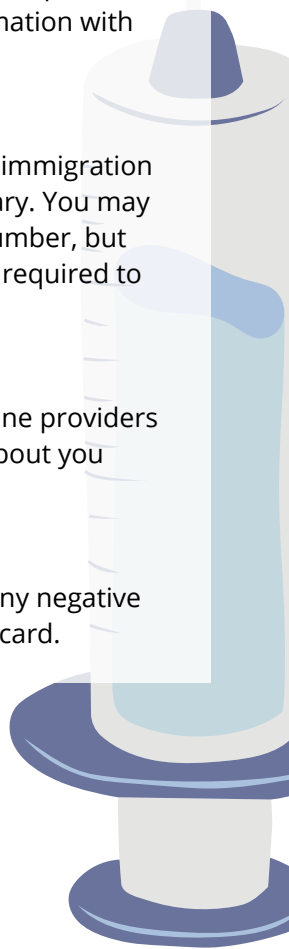

Immigrants can get the COVID vaccine. No immigration status or Social Security number is necessary. You may be asked to provide your Social Security number, but you are not required to provide it. No ID is required to get the COVID vaccine.

Your information is kept confidential. Vaccine providers may not share any personal information about you with ICE for immigration enforcement.

Getting the COVID vaccine does not have any negative impact on your chances of getting a green card.

The COVID vaccine is safe and effective.

For additional information about how and when to schedule your vaccine appointment, go to [tnjustice.org/covid-vaccine-update-tn](https://tnjustice.org/covid-vaccine-update-tn).
